
UX Skills that Can Help You Transition into Service Design

UX is closely related to service design. A UX designer often focuses on digital user interfaces, whereas a service designer usually has a much broader scope across multiple channels. Both fields share many of the same activities and methods.

That means that, for a UX designer, a number of UX activities are also relevant in service design. You can develop your skills in these activities to make it easier if you transition into service design.

For the smoothest transition from UX design to service design, ensure that your answer is "yes" to all of these questions:

User Research:

YES	NO	
☐	☐	Do you carry out field research away from your desk and your workplace?
☐	☐	Do you conduct usability testing of your designs?

Creative Commons BY-SA license: You are free to edit and redistribute this template, even for commercial use, **as long as you give credit to the Interaction Design Foundation**. Also, if you remix, transform, or build upon this template, you must distribute it under the same CC BY-SA license.

UX Design:

YES	NO	
☐	☐	Do you design across channels and contexts?
☐	☐	Have you ever designed a non-UI interaction?

Prototyping:

YES	NO	
☐	☐	Do you use low-fi techniques, such as paper prototyping?
☐	☐	Do you prototype across channels and contexts?

Business Objectives:

YES	NO	
☐	☐	Do you capture detailed business objectives to inform your designs?
☐	☐	Do you review analytics? (web, sell-through, conversion rate, financials, data model)
☐	☐	Do you work cross-functionally in a team with different functional expertise but a common goal?

Do You Want to Learn More?

Learn how to use this template to your best advantage in our online course Service Design: Delivering Integrated Service Experiences. Sign up for it today and learn how to design and deliver your own service experiences.

Service Design: Delivering Integrated Service Experiences

Intermediate course

Service Design is important! People engage with services every day and everywhere, so **as designers we can make a big difference** to a lot of people if we ensure that those services are efficient and provide a great experience. We can also make a big difference to our businesses and organizations if we ensure that services are delivered better than our competitors.

By the end of the Service Design: Delivering Integrated Service Experiences course, you'll know how to confidently run a service design project and which tools and methods to use along the way. You'll also know how to evangelize service design in your organization and with your stakeholders, and how to assemble a service design team.

If you're already familiar with **human-centered design methods** or work in **user experience, product design** or even **C-Suite business management**, then this course will extend your skills and show you how to deliver integrated and omni-channel services as part of a collaborative team. You'll be able to apply a deeper understanding to your existing work to achieve even better results.

About the Interaction Design Foundation

INTERACTION DESIGN FOUNDATION

With over 66,000 alumni, the Interaction Design Foundation is the biggest design school globally. Industry leaders such as IBM and Adobe train their teams with our courses, and universities such as MIT and the University of Cambridge include our courses in their curricula. Our online courses are taught by industry experts and cover the entire spectrum of UX design from beginner to advanced. We give you industry-recognized course certificates to advance your career. Since 2002, we've put together the world's biggest and most authoritative library of open-source UX Design literature created by such noted authors as Don Norman and Clayton Christensen.
